

Early and Lower School World Language

The Grosse Pointe Early and Lower School French program provides the foundation for life-long learning of world languages and cultures. The students meet once a week in the Early School and twice a week in the Lower School to study French in an immersion environment where both teachers and students speak French on a regular basis.

The Early and Lower School French program is energetic and exciting. A variety of props, stories, music, puppets and visual aids are used to reinforce communication. Grades 1-3 use the following textbooks to introduce the four components of language: listening, speaking, reading, and writing.

Texts:

Gaston 1 Eli

Helico et ses copains, Niveau 1 and 2

The computer lab is operational as a language lab through the use of microphones and headphones.
