

## **Early School Creative Movement**

The Early School Creative Movement classes consist of six segments. The program is designed to reinforce physical skills, introduce new skills and illustrate problem-solving alternatives.

### **Problem Solving**

To learn and physically interpret word definitions.

### **Basic Dance and Gross Motor Skills**

To learn basic dance movement, the correct terminology and combine two basic dance or motor skills.

### **Concept/Theme**

To expand verbal and movement vocabulary while interpreting information via movement.

### **Vocabulary Development**

To create a larger word choice reinforced by physical demonstration.

### **Creative Expression**

To interpret subjects explored in the classroom and express their interests and outlooks.
